The presence of algae in spas is objectionable and can be difficult to remove. SPA KEM™ ALGY BAR 206™ helps prevent the growth of chlorine-resistant algae (such as mustard and "black" algae). It also acts as an added defense against algae incidents due to low chlorination periods. Once started algae greatly increases chlorine (and other chemicals) demand, and the associated increased costs.

DIRECTIONS FOR USE : It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
FRESHLY FILLED AND/OR ALGAE FREE SPAS: Add 3 to 5 ounces of SPA KEM™ ALGY BAR 206™ per 500 gallons of spa water. Add 1 to 3 ounces weekly as a maintenance dose to prevent the growth of algae.
VISIBLE ALGAE GROWTH: Add an initial dose of 5 to 8 ounces of SPA KEM™ ALGY BAR 206™ per 500 gallons of water. Thereafter, add 1 to 3 ounces (per 500 gallons) weekly to prevent regrowth of algae.
NOTE: In order to insure the maximum effectiveness of SPA KEM™ ALGY BAR 206™ super-chlorinate with sufficient chlorination product (such as SPA KEM™ CHLORINATING GRANULES) to produce a chlorine reading of 5 to 10 ppm. Remove all debris from the water by sweeping and filtering or vacuuming. In order to aid in the removal of the very fine particles resulting from the affected algae, the use of SPA KEM™ WATER CLARIFIER is recommended. Always maintain the pH at 7.2 to 7.6 and a free chlorine residual of 2 to 3 ppm using a reliable test kit.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.
CHEMICAL HAZARDS: Mildly corrosive. Do not mix with acids, ammonia, oxidizers, bleach or other household chemicals.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish.

STORAGE AND DISPOSAL: Storage: Keep product in tightly closed container when not in use. Store in cool, dry, well ventilated area away from heat or open flame. Disposal: If Empty: Do not reuse container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

FIRST AID	
If Swallowed	Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water, if able to swallow. DO NOT induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person.
If In Eyes	Hold eye open and flush with plenty of water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor immediately for treatment advice.
If on Skin or Clothing	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor immediately for treatment advice.
If Inhaled	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration preferably mouth -to- mouth if possible. Call a poison control center or doctor immediately for treatment advice.
Have the product container or label with you when calling poison control center or doctor, or going for treatment. For assistance call 1-800 767-7665
