

For Increasing pH of Water
Para Aumentar El pH En El Agua

ACTIVE INGREDIENT:
Sodium Carbonate.....100.0%

KEEP OUT OF REACH OF CHILDREN
NO SE DEJE AL ALCANCE DE LOS NIÑOS
CAUTION IRRITANT: HARMFUL
AVISO IF SWALLOWED.
See back panel for first aid statement and other precautions

NET WT. **2** Lbs.
(.908 Kg.)

CA Reg. No. 7616-50033
Manufactured by:
CHEM LAB PRODUCTS, INC.
Ontario, CA 91761

Regular pH control of spa water is essential. Low pH can result in corrosion of metal parts, stains, or possible damage to the spa itself. High pH can cause cloudy water, scale and dry skin. Keep pH of spa water in the 7.2-7.6 range. Check pH weekly using a reliable spa test kit. If the pH is less than 7.2, adjust the pH to 7.2-7.6 using SPA KEM™ pH PLUS (+) (1/4 oz. SPA KEM™ pH PLUS (+) will raise the pH of 100 gallons of water approximately 0.2 pH units, or use handy table below). DO NOT add SPA KEM™ pH PLUS (+) to spa water having a total alkalinity of less than 110 ppm, but first increase the total alkalinity to 140-150 ppm using sodium bicarbonate (Baking Soda). If pH reading is still less than 7.2, use SPA KEM™ pH PLUS (+) to raise it to the proper range. With air blower or water jets thoroughly agitating water, sprinkle measured amount of SPA KEM™ pH PLUS (+) into spa. Continue agitating water until SPA KEM™ pH PLUS (+) has completely dissolved—5 to 10 minutes.
NOTE: False pH readings (colors don't match test) can occur due to high chlorine or bromine levels in the water. DO NOT adjust pH until accurate tests can be performed.

AMOUNT REQUIRED TO RAISE pH 2/10 (0.2)

GALLONS	100	300	400	500	600	1000
pH PLUS	1/4 oz.	3/4 oz.	1 oz.	1 1/4 oz.	1 1/2 oz.	2 1/2 oz.

1/4 oz. = 1 heaping teaspoon 1 oz. = 1 heaping tablespoon
CAUTION: Contains sodium carbonate. Avoid contact with eyes and prolonged contact with skin. Do not mix with other spa chemicals. Mix only with water.
STORAGE AND DISPOSAL: Store in tightly closed container in a cool, dry place. When container is empty, rinse thoroughly and discard.

KEEP OUT OF REACH OF CHILDREN AND PETS.

FIRST AID	
If Swallowed	Call a poison control center or doctor immediately for treatment advice. Have person drink Large quantities of water. Do not give anything by mouth to an unconscious person.
If In Eyes	Hold eye open and flush with plenty of water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor immediately for treatment advice.
If on Skin or Clothing	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.
Have the product container or label with you when calling poison control center or doctor, or going for treatment.
