**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER: CORROSIVE:** Causes irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms.

**PHYSICAL AND CHEMICAL HAZARDS: STRONG OXIDIZING AGENT.** Will burn with the evolution of chlorine and equally toxic gases. Contact with water slowly liberates irritating and hazardous chlorine containing gases. Decomposes at 460 F to 480 F with liberation of harmful gases. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to a fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of fire, if possible isolate container in open air or well ventilated area. Flood with large volume of water. In case of contamination or decomposition, do not reseal container.

**DIRECTIONS FOR USE :** It is a violation of federal law to use this product in a manner inconsistent with its labeling.

1.FOR CONTROL OF BACTERIA AND ALGAE (OUTDOORS) IN SPAS: Before bathing, test water pH, chlorine residual and alkalinity using a suitable test kit. Adjust chlorine residual to 3.0 ppm. After bathing, super chlorinate to 5.0 ppm (1 level tablespoon per 500 gallons of water). Use a chlorine stabilizer, especially outdoors, to prolong chlorine residual. Maintain pH of water between 7.2 and 7.6 and total alkalinity between 125 and 175 ppm with SPA-KEM™ pH PLUS(+) or SPA-KEM™ pH MINUS(-).

2.This product does not affect pH or alkalinity of water. One tenth oz. (1/2 tsp.) per 500 gal. of water gives 1.0 ppm and 1 level tbsp. gives 5.0 ppm of chlorine. To use, broadcast granules into water with jets running. Bathing can start at once.

3.With 4 bathers in a 500 gal. spa a 2.0 ppm chlorine residual can drop below the minimum 1.0 ppm in 15 to 20 minutes. Less water or more bathers will accelerate loss. Test often and keep chlorine residual above 1.0 ppm.

4.Weekly, super chlorinate water to 5 or 6 ppm (see 2 above). Re-entry into treated spas is prohibited above levels of 3 ppm of chlorine. Draining and cleaning of spa is recommended whenever the water becomes difficult to manage or chlorine stabilizer goes over 100 ppm as measured with a suitable cyanuric acid test kit. Avoid use of products such as body lotion that consume chlorine.

**STORAGE AND DISPOSAL:**

**Storage:** Keep product in tightly closed container when not in use. Store in cool, dry,well ventilated area away from heat or open flame. **Disposal:**If Empty: Do not reuse container. Place in trash or offer for recycling if available. If Partly Filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

**NOTE:** Do not allow direct contact of this product on the following surfaces: vinyl, metallic, fiberglass, painted or colored plaster. Product will bleach color out.

**FIRST AID**

<b>If Inhaled</b>	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration preferably mouth -to- mouth if possible. Call a poison control center or doctor immediately for treatment advice.
<b>If on Skin or Clothing</b>	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor immediately for treatment advice.
<b>If In Eyes</b>	Hold eye open and flush with plenty of water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor immediately for treatment advice.
<b>If Swallowed</b>	Call a poison control center or doctor immediately for treatment advice. Promptly drink large quantity of water if able to swallow. DO NOT induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling poison control center or doctor, or going for treatment. For assistance call 1-800-767-7665

Note to Physician : Probable mucosal damage may contraindicate the use of gastric lavage
